The image shows a Russian-language factsheet titled "Повышение качества составления листа-вкладыша и успешное прохождение пользовательского тестирования в соответствии с регуляторными требованиями ЕАЭС". It details the importance of user testing for registration in the Eurasian Conformity (Eurasian Conformity) market. The document lists various types of testing (01 Standard, 02 Simplified) and highlights the benefits of using Inpharmatis services, such as 100% approval rate and fast execution. A circular graphic shows a 90% success rate. The bottom section lists Inpharmatis as an international expert in regulatory services and provides contact information.
